To Whom It May Concern:

My name is Len Wilson and I am a Contract Officer for the General Services Administration (GSA), Colorado Service Center, Downtown Denver Field Office.

I have had the opportunity of working with NM Industrial Services LLC (NM) on several service contracts ranging from \$5,000 to \$400,000. Projects include: an emergency fan rebuild replacing shaft, bearings, sheaves, and belts for the exhaust fan that runs the federal holding cells at the Byron Rogers Courthouse, testing & balancing of the heating and air conditioning equipment at the Byron Rogers Courthouse, and repairing numerous cooling towers. NM is knowledgeable regarding mechanical heating and air conditioning. They are very dependable and responsive to the needs of GSA and their customer's.

I am extremely confident in referring their services to other government agencies as well as the public commercial and industrial customers. They have successfully completed numerous projects for me that have exceeded my expectations. I am always comfortable in hiring NM for their services and assistance to GSA for projects at the Downtown and other field offices as well.

If you have any questions, please contact me at 303-236-8000x2315 or len.wilson@gsa.gov.

Sincerely,

Len Wilson
Contract Officer
