Re: Letter of Recommendation

To Whom It May Concern:

This letter shall serve as a Letter of Recommendation for Nathan Martinez and NM Industrial Inc. for work on HVAC, Plumbing and Balancing for commercial and industrial work including schools and medical facilities.

NM Industrial has performed work for LBA Construction Services on various projects for the past 2 years and completed their work on time and within the respective budget. Our field supervision considers NM Industrial field craftsmen to be professional and safety oriented and relies on their expertise to help coordinate and expedite our projects.

I have worked closely with Mr. Martinez on many project value engineering the work to meet very tight budgets and Nathan has provided many excellent suggestions to get stalled projects into the construction phase.

Please feel free to call me if you have any questions.

Alan L. Bernhardt
Director of Construction
